Gratnells

Creating spaces for creative minds

MakerSpace Trolley

The Gratnells Callero MakerSpace trolley serves as a central focus for collaborative working, making it a reliable resource centre for all types of project work in STEM/STEAM education. It is configured with a variety of storage tray and insert options whilst storage bins, pegs and tool holders can be fixed to the backboard and side panels in many arrangements.

The trolley also features a robust steel frame and large lockable castors. Easy cable management means electrical items, like Gratnells PowerTray, can be conveniently used on the work surface whilst Callero Rover makes the ideal companion trolley.
