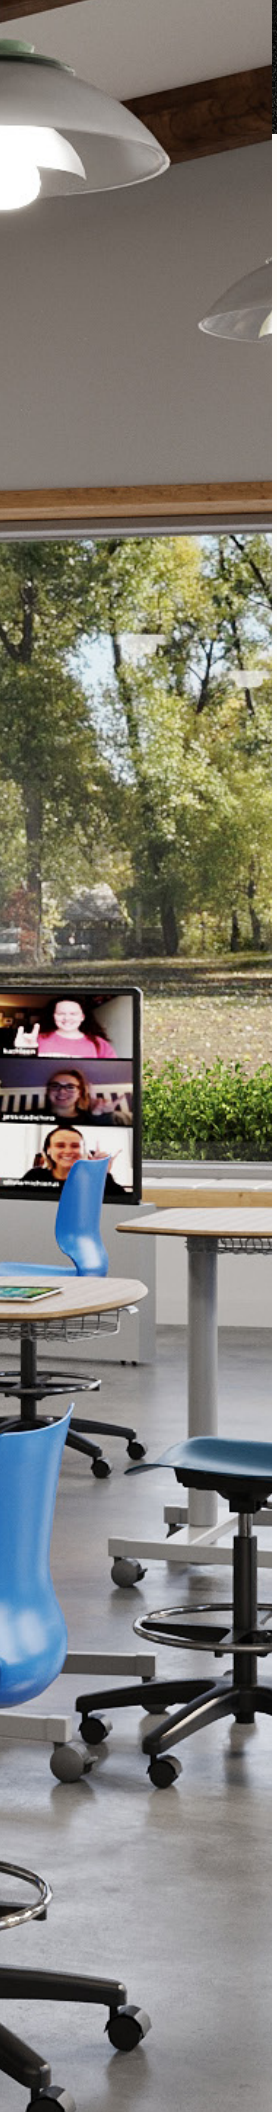
Motum™

TEACHER WORKSTATION



Mobility, Versatility, Storage in One

Flexible classrooms require teachers – and their tools – to be on the move. Motum™ Teacher Workstation offers mobility in a contemporary design that preserves practical storage features. The result is a nimble necessity with aesthetic appeal across the education continuum. Motum™ makes a sleek office desk, too.

The Mobility Story

Teacher desks are personal basecamps. But they need to work in flexible classrooms. Using a wheelbarrow-type motion (glides on one side, lockable casters on the other), teachers can move their light-weight workstation almost anywhere.

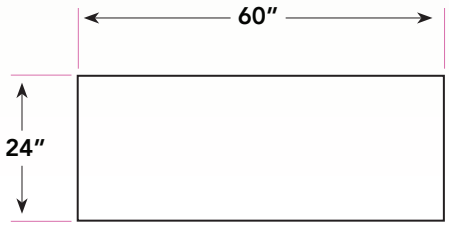
Customize Your Station

We started with a stationary desk made from Smith's System's rugged steel frame and high-density board. Wire management is standard. Then we added popular options to customize.

Choose from two desk sizes, three different end pedestals, and a right- or left-hand configuration – 12 models in all. Here's how.

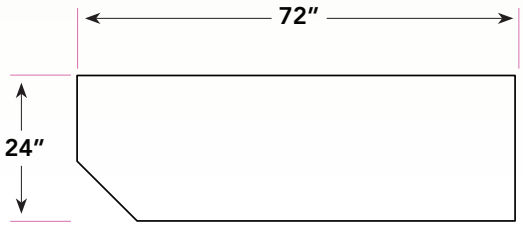
1 Select Size

Two sizes vary in length and shape.



24x60-inch fixed-height desk with 90-degree edges.

58003
Teachers Desk 60" w/ Totes, Left-hand



24 x 72-inch fixed-height desk with overhang for one-on-one tutoring. The extended surface is angled for optimum eye contact.

58022
Teachers Desk 72" Right-hand, Split-height

2 Pick an End Pedestal

Under-desk storage keeps materials tidy and secure. Pair either size desk with one of three, fixed end-pedestals with lockable front panel.

Adjustable Height Mobile Lectern

A 24x24-inch surface area adjusts from 30–44 inches, with tilt capability and built-in storage.

58021
Teachers Desk 60" Left-hand, Split-height

Three Tote Storage Pedestal

Drawers are Smith's Cascade Totes (available in two 3-inch and one 12-inch or six 3" totes) on easy-glide rails.

58007
Teachers Desk 72" w/ Totes, Left-hand

Three Drawer Pedestal

A standard box/box/file format of steel pull-out drawers.

Teachers Desk 60" w/ Box & File, Right-hand

3 Finalize the Finish

Platinum grey finish is standard. Choose from Smith System's 15 standard laminate colors for top and sides. It's easy to match with Smith's student tables and desks.

Go Solo: Motum™ Adjustable Height Mobile Lectern

Let teachable moments happen anywhere. Purchase Motum™ mobile lecterns separately and roll them into learning commons, gyms, even outdoors. In higher-ed, roll lecterns between lecture halls. Speakers can easily adjust height and tilt features to their ergonomic sweet spot.

Pair With Theorem® Seating

Smith's Theorem® adjustable chair with seat pad pairs perfectly with the Motum™ workstation. Theorem's more deeply contoured seat supports upright sitting for desk work. A flexible seat back allows a relaxed recline. For maximum comfort, the user's lumbar region always stays in contact with the chair.
