Product Features:

Highly Durable, Heat Resistant ABS Plastic:

The main tub and the lid of the Tech Tub™ are made of special injection molded ABS polymer that is both stronger and more resistant to heat than our line of Royal® Storage Tubs.

Ventilation:

Keep your devices cool while they charge with ventilation throughout the Tech Tub™. The Tech Tub™ lid has ventilation holes on either end that allow warm air from charging to escape and keep devices at the optimal room temperature.

Supports a Range of Devices and Cases:

The Tech Tub™ can accommodate a variety of devices and most protective cases. Check the compatibility of your device (and case if applicable) at <http://copernicused.com/file.aspx?id=d7eb8520-5f4b-4d1f-9bc4-ecdb9d539554>

Internal Six-Outlet Powerbar (TEC500):

Easily charge all of your devices at once with the internal powerbar. Includes six outlets and is removable to access additional storage area found below. The powerbar offers surge protection for your devices from lightning storms, etc. Cable hooks on the Tech Tub™ help keep the 8-ft cable wrapped and organized during transportation. Also included are outlet covers that protect users from unused outlets while the powerbar is supplying power.

Embedded Metal Locking Block:

This steel overmolded lock hump provides additional security for your devices. Simply close the lid and use a padlock to keep it locked down.

Locking Block and Locking Pin System (TEC500):

Secure your Tech Tub™ within the classroom with the Locking Block and Pin system. Simply mount the Locking Block to a table, desk, counter, or any other flat surface found around your room. Then slide the Tech Tub™ over the Locking Block and slide the Locking pin through. Lock with a supplied padlock on the other side. The M6 x 70 mm screws supplied for mounting the Locking Block is designed for a maximum table thickness of 50 mm or 2".

Internal Divider (TEC500):

A vinyl rubber-dipped internal divider helps keep all of your cables in order. Special spiral cutouts make sure that the right cable stays with the right device.

Velcro Ties (TEC500):

Organize excess cable length with supplied velcro ties. 5 velcro ties are included.

Padlocks with Keys (TEC500):

These highly durable padlocks help keep your Tech Tub™ secure and your devices safe. Padlocks come with 4 keys per lock and are keyed alike for ease of access and convenience.

Device Holders (TEC-AC5, TEC-AC7, TEC-AC5C):

TEC-AC5 included with TEC500. TEC-AC7 and TEC-AC5C are sold separately. Strong wire dividers keep your devices in place while you move the Tech Tub™ from room to room. A foam base pad and foam bumpers secure the devices without damaging or marking. Device holders support five or seven devices at once. TEC-AC5C supports Samsung X303C12 Chromebook only.

Synchronization Hub (255141):

Sold separately. Synchronize your set of iPads with this 7-port USB Hub. This helps keep all of your iPads in working shape with the applications and settings that you want.
