

6-Position Non-Powered USB Listening Center

Model 1216USB-6

1. Six Multimedia Stereo headsets
2. In-line headphone volume control for listening
3. Master volume controls for headphones and mics
4. 3.5mm inputs for up to six headsets (or headphones with separate microphones)
5. USB attachment for streaming audio from computer
6. Two predrilled holes to permanently affix jackbox (with five skid-resistant pads that won't mar or scratch surface)
 - 6V power adapter included
 - Rugged ABS plastic casing throughout jackbox and headphones for durability and student safety

Ideal for listening centers, literacy groups and Special Education applications, this multi-modal Stereo Listening Center takes full advantage of today's technology with its USB plug for high efficiency audio streaming from computers.

The 1216USB jackbox features plugs for six headphones and six mic inputs for securing verbal responses, which makes it ideal for language learning. It can also be used in classes with higher student to computer ratios and for group-focused VOIP calls.
