

PA Pro™ Wireless Public Address Systems

Models PA10A and PA10B

The portability and versatility of a wireless PA system are built into the PA Pro. Powerful enough to handle indoor and outdoor uses for up to 150 people, it is ideal for school yards, tour groups, meetings & can be a potential lifesaver in emergencies where crowd control and communication can make the critical difference. It's available in your choice of two different frequencies, enabling two units to be used in the same area without any crosstalk from one PA to the other.

1. Built-in carrying handle for playground use, meetings or tours
 2. Rugged ABS plastic casing withstands repeated use
 3. Separate tone and volume controls
 4. 6 hour battery use with low battery indicator and unit still operates while recharging its built-in battery
 5. Hands-free wireless mic and belt-pack transmitter
 6. Lightweight transmitter comfortably worn on waist
 7. Internal storage space so transmitter, charger, & mic won't get lost
 8. 3.5mm mic jack for use with a wired microphone
- 100' wireless range from transmitter to PA
 - Available in two frequencies for crowd management situations which require two separate units
 - One year warranty for school use - unlike PA units purchased from consumer electronics stores whose warranties would be voided if used in schools
