OF EDUCATION

PowerPro™ Speaker System

Model PA919D

The **Deluxe PowerPro Package** is the ideal system for those who require an easy-to-use, portable sound reinforcement solution but do not have the budget, technical know-how or time required to operate a multi-component system. It includes the PowerPro 90-watt RMS Master speaker (PA919), non-powered support speaker (PA919SP), wired and wireless mics, tripods and stands. The main speaker (PA919) can also be used as a stand alone system.

The Deluxe Package can be used at any kind of venue and is powerful to address crowds of 1750 people or more (with added speakers). The PA919 includes two built-in wireless mic receivers, a CD player and a variable speed cassette recorder/player. It has two combination XLR / 1/4" jacks for use with wired mics and also includes a set of stereo RCA jacks that are ideal for connecting external audio sources or recording devices. The PowerPro is the first portable PA system to offer wireless transmission (300' range) to an unlimited number of its powered companion speakers. In addition to its wireless transmission capabilities, the PowerPro has an active bus circuit to connect two wired units such as the Non-Powered Support Speaker with a 1/4" Line in. The PA919 has independent bass and treble controls, digital master volume control, power status indicator and universal power supplies while the non-powered support speaker (PA919SP) does not. All PowerPro series PAs feature 10" high-powered woofers which are driven by 40 ounce magnets (the most efficient in their class) and high-frequency compression drivers for optimal audio reproduction.

The main PowerPro speaker gives added assurance by providing visual confirmation of power, radio frequency and audio reception for its two wireless receivers by a set of LED lights on the front of the speaker. Both speakers in the Deluxe Package have durable fiberglass-reinforced polypropylene enclosures with rugged powder-coated perforated steel grilles and telescoping handles for easy transporting. A critical factor for use in schools, rental facilities and other venues, the PA919 is UL and CE approved safe for use in schools, by rental facilities and other venues. And because wireless PowerPro units share the same frequencies and microphones with the PresentationPro PA series, the two PA series can be used together to extend audio coverage, budgets and creates flexibility by avoiding expensive redundancies in equipment.

- Up to 300' wireless transmission to unlimited number of powered wireless companion speakers
- 90 Watt RMS power amplifier
- Two built-in 16-channel selectable UHF wireless mic receivers
- Operates on both AC and DC power for flexibility at all types of indoor and outdoor venues
- Built-in fully programmable CD, variable speed cassette player (plays CD-R & CD-RW discs)
- All-terrain wheels and 4-position telescoping handle for easy transporting

Its portable size, easy setup, reliability and simple-to-operate control panel make the PowerPro ideal for a wide variety of sound reinforcement applications.

Educational Institutions - A practical solution ensuring students can hear vocal and prerecorded presentations in assemblies, athletic functions, theater events and many more applications.

Government Facilities, Hospitals & Law Enforcement - Require the safety and certification the PowerPro delivers as well as meet emergency response requirements and the portability and versatility of the PowerPro make it a go anywhere sound solution.

Meeting Facilities (Lecture Halls, Presentations, Conferences, etc.) ideal for everything from an impromptu press conference to the local civic organization meeting.

Athletic Events from practices to game-day the PowerPro is perfect for announcements, Parks & Recreation Departments and leading cheers. Coupling the PowerPro Nonpowered Support Speaker with a powered PowerPro PA system makes for a custom tailored sound reinforcement solution for covering a football field as well as baseball and soccer games, Dance & Fitness events, races, parades and so much more.

A/V Multimedia Support - in the classroom, the boardroom or any sales presentation, the PowerPro delivers clear sound.

Rental Inventories - The PowerPro is the perfect reliable solution for rental houses and single event users who do not want to invest in either the equipment or the time to learn the gear.

Houses of Worship - Ideal for services, social functions, internment ceremonies, any pre-recorded worship and large indoor or outdoor events.
