Wireless & Powered Whiteboard Array Speaker

Model PI39

This wireless & powered Whiteboard Speaker delivers superior audio enhancement for up to 300 people from LCD projectors, computers, and media players. Array technology focuses the sound pattern directly at the audience for a clearer and more evenly balanced message (by not bouncing its sound off walls it doesn't increase the ambient noise level). Its fixed & variable line-outs for adding other speakers are complimented by 16-channel UHF flexibility for receiving wireless audio.

1. Protective steel grille
2. Variable line-out
3. 16-channel UHF selectability
4. Dual 1/4" mic in
5. Dual line-in connects audio from whiteboards, LCD projectors, computers, cameras and other media players
6. Tone control
7. Dual volume controls, UHF reception on/off
8. Duplicate DC functions allow the speaker to be hung from multiple angles without interfering wires
9. Fixed line-out allows unit to function as master volume control for other daisy-chained speakers
10. Three transducers with high-energy neodymium magnets, which are twice as efficient as conventional ferrite magnets for more power from a smaller, lighter speaker

"Project Intercept"

Please contact us immediately if you experience any difficulties with your PI39 speaker. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com

Visit our website at www.califone.com to learn more about the complete line of *Califone*® audio enhancing and visual technology products including: Wired and Wireless public address systems and lecterns, wireless microphones, headphones & headsets, group listening centers, multimedia players and computer peripheral products.

We are proud of helping teachers enhance student understanding and achievements since 1947, with your satisfaction as our first priority.

The PI39 has a limited six-year warranty and service support available through authorized dealers nationwide. Its warranty covers school use - unlike some other PA products whose warranties would be voided if used in schools.

Specifications

Array Speaker Amplifier

Rated Power Output: 30 watts RMS, monaural
Sensitivity for Rated Output: Line: 125 mVrms, mic: 4 mVrms
Auxiliary: 250 mVrms
Frequency Response: 150 Hz - 20 kHz
Sensitivity: 93 dB 1 Watt @ 1 meter
Impedance: 6 Ohms
Speakers: 3 each 16 Ohm transducers with high performance neodymium magnets
Inputs: Line inputs (2): Hi-Z, RCA (summing L+R)
Balanced mic: Hi or lo-Z, with phantom power (+15 volts D.C.)
Unbalanced mic: Lo -Z, 1/4"-phone
Auxiliary: Hi-Z Mono 1/4"-phone
Line outputs (2) fixed & variable
Wall adapter with D.C. output to amp.
Ouputs
Power Source:
Dimensions (HWD), weight: 12.5" x 5" x 4.5", 3.2 pounds
Dynamic Range: 100 dB

Receiver Specifications

Channels: 16 Selectable UHF
Frequency: 902 - 928 MHz
Oscillation: Phase Lock Loop, Synthesized
Modulation: FM (Frequency Modulation)
Sensitivity: 7 microvolts
Frequency Response: 90 Hz - 17 KHz
Wireless Receiver Range: Approximately 160 ft.
Dynamic Range: 100 dB
Material: ABS plastic with protective steel grille
MB30 Mounting Bracket (included but not shown)
Movement: Swivels horizontally or vertically depending on mounting position, heavy-duty 1018 steel, 1.7 lbs
Weight: 4.9 lbs each with bracket, ship 10 lbs.
Warranty: 6 years from date of purchase
