

NEW! On-Wall Charging Center
(WCC1000) (holds up to 10 devices)

The Copernicus
Difference

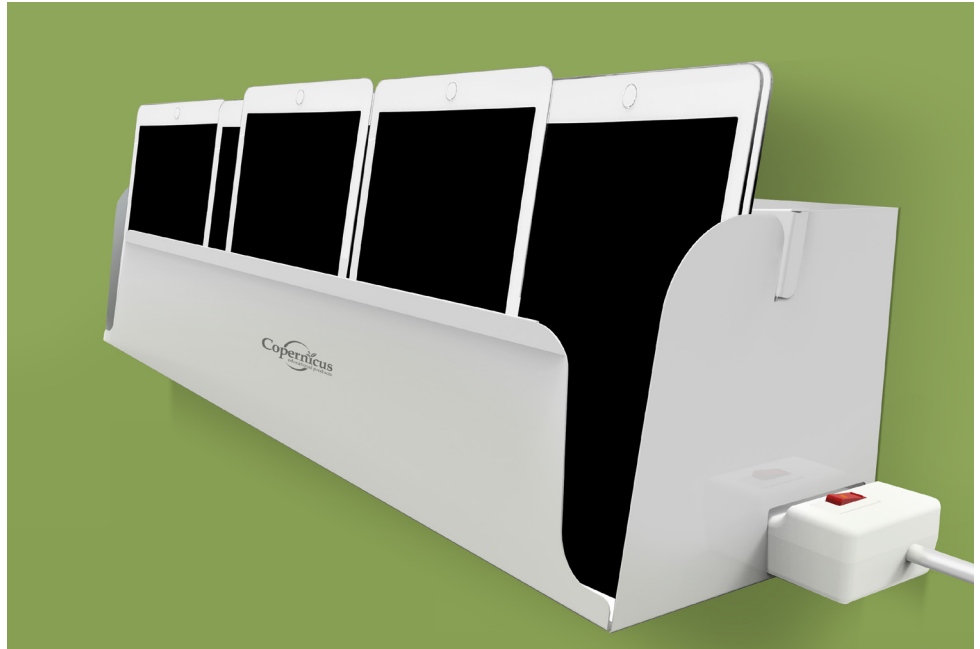

Compact design keeps devices, cords
and adapters up and out of the way.

NEW! On-Wall Charging Center

The On-Wall Charging Center is an affordable charging and storage solution for up to 10 iPads®, 11" Chromebooks™ and other tablets. The space-saving design makes it easy for teachers and students to manage devices and keeps devices, cords and adapters up out of the way.

Cable clips keep cords organized and in line with each device

10 device power strip switch and plug are conveniently located outside the center for easy charging

Features:

- Holds all generations of iPads®, most 11" Chromebooks™ and other tablets
- Easily mounts to walls (mounting hardware not included)
- Removable divider helps make cable set up quick
- 10 outlet power strip with surge protector
- Cable clips to keep cords lined up with devices

Note: Designed for wall-mounted use only

Removable divider allows for easy access to power strip and device adapters during set up
