

Lil' Premier Series

Portable Hot Water Handwashing Sink

OUR AWARD-WINNING **LIL' PREMIER** IS recognized for its durability, quality, and safety considerations specifically designed for small children. The **Lil' Premier** is nearly identical to the Premier, except for its 30" height. The modest footprint of this model makes it perfect for out-of-the-way, under-the-counter storing, while complying with handwashing standards in classrooms.

The **Lil' Splasher** features our integrated ABS splashguard design. Stainless steel cabinet bottoms, ADA compliant handles, keyless lock, soap dispenser and front safety casters are standard features on each Lil' Premier portable hand sink.

LIL' SPLASHER

Lil' Splasher

ABS Countertop / ABS Basin

Handwashing Compliance

Ozark River is the Standard

NSF® CERTIFICATION

NSF® Certification is a key factor separating Ozark River Portable Sinks® from its competitors. NSF® is the most recognized sanitation standard in many industries. Certification is critical to help ensure Ozark River Portable Sinks® complies with most state and local handwashing codes.

SACERS RATING

SACERS provides an easy to use resource for defining high-quality care and assessing levels of quality in child care programs. Ozark River Portable Sinks directly affect SACERS, increasing the rating.

SACERS Rating: 12 - 3.4 - 5.1 - 5.2

ENERGY AND WATER SAVINGS

Our reliable, instant hot water system uses a minimal amount of energy to heat the water. No preheating of water is required. Sinks also dispense a sensible 1/2 gallon of water per minute (GPM), providing a perfect, economical stream of water for handwashing while conserving precious water resources.

Consult with your state and local environmental health official to confirm usage of portable sinks in place of plumbing.
