

THE SIGHTS & SOUNDS  
OF EDUCATION

# USB Headset

## Model 4100-USB

**The USB Headset is the first headset designed specifically for school use with USB connectivity. Its unidirectional mic and noise-reducing around-ear earcups are ideal for high speed internet use for distance learning applications, tutorials, language learning and situations requiring isolated vocalized feedback.**

1. Recessed wiring resists prying fingers for school safety
  2. Fully adjustable headstrap, earcups and headstrap made with rugged ABS plastic for added durability in high-use settings
  3. 10' straight cord won't tangle with other wires and is lengthy enough to reach rear computer ports
  4. Backwards-compatible USB 2.0 plug ideal for high speed internet use, delivers a more balanced sound distribution with "plug and play" performance (meaning Windows and Mac compatibility)
  5. Accessible in-line volume and mute control, mic on/off switch
  6. Unidirectional electret mic with flexible gooseneck and built-in wind screen reduces recording of unintended sounds
  7. Permanently attached cord with reinforced connection resists accidental pull out for classroom safety
  8. Noise-reducing earcup lowers ambient noise so volume does not need to be as high - recommended by the American Speech-Language-Hearing Association for hearing safety
- Two-year warranty for school use - unlike headsets purchased at consumer electronics stores whose warranties would be voided if used in schools

### "Project Intercept"

Please contact us immediately if you experience any difficulties with your headset. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email [warranty@califone.com](mailto:warranty@califone.com).
