

Science is hard. Moving your tables shouldn't be.

LIFT. ROLL. LOCK

Built for labs where flexibility matters. This table makes it easy for one person to move, position and secure without the strain.

P7604K34W

Introducing *the New* PerpetuLab Wheelbarrow Table

MOVE IT YOURSELF

No second person needed. Designed for easy, controlled movement.

FASTER CLASSROOM RESET

Reconfigure spaces quickly between activities.

EASIER ACCESS WHEN TABLES ARE SIDE-BY-SIDE

Grab, lift and move without repositioning everything.

NO DRAGGING REQUIRED

Lift and roll into place. Helps protect floors and reduce wear.

Easy One-Person Movement for Your Lab Tables

Engineered to make repositioning simple, safe and efficient in real classroom environments.

P7604M34W

Designed for One-Person Control

HANDLE CUT RIGHT INTO THE TOP

Solid phenolic top with integrated handle for a secure, comfortable grip and single-person movement.

CHAMFERED EDGE

5" chamfered edge provides leverage even when tables are positioned side-by-side; just grab and go!

HEAVY-DUTY, EASY ROLL

3" swivel locking casters positioned on opposite handle side, engineered for lift-and-roll motion.
