

ANI-KIT

The simple and easy to use to use Animate It! software has an intuitive interface with stunningly powerful features that will have your students creating stop-motion animations in no time!

The Animation Studio Kit includes a 10x digital zoom, 5MP gooseneck webcam with a non-slip base and Animate It! stop motion animation software, developed by the award-winning makers of "Wallace & Gromit"

Simply plug in the included USB webcam, grab an item – a toy, a fruit, a book, anything at hand – and get animating!

Ideas for stop motion videos are becoming more and more imaginative, and the technique is being applied to all types of contents, from informational videos to quirky advertisements.

This kit contains everything you need to create amazing high-definition stop-motion animations. Fun for all experience levels!
