Boost-R-Bots[™] – Bring STEAM Curriculum to Life with Block-Building Robot Engineering

MRT3

The HamiltonBuhl® Boost-R-Bots™ STEAM Kit helps transform abstract concepts into hands-on learning experiences. Students across multiple grades, from elementary school to high school, will get a first-hand experience in science, technology, engineering and mathematics with this engaging multi-function robot engineering kit.

With step-by-step instructions, HamiltonBuhl® Boost-R-Bots™ come complete with all the blocks and components needed to create 15 different, more and more complex robots incorporating a programming board, motors, remote controller and electricity.

Foster collaboration, innovation and problemsolving, as students innovate upon Boost-R-Bot $^{\text{TM}}$ robots, or even engineer one from scratch with all the components at hand.

Inventing and experimenting with the Boost-R-Bot™ Kit goes beyond playtime. It's a hands-on opportunity to learn the basics of structural engineering, physics and creative thinking.

Students across multiple grades will get a first-hand experience in science, technology, engineering and mathematics, with this engaging, multi-function, robot engineering kit.
