

CARE & MAINTENANCE:

Furniture

General Cleaning Instructions:

Daily cleaning can be performed using a clean, soft cloth and mild all-purpose or multi-surface household cleanser. For tough stains, a simple mixture of baking soda and water applied directly to the stain then removed with a damp cloth will generally work very well. Avoid using abrasive or bleach-based cleansers on furniture surfaces. Never use scrub sponges or steel wool on laminate and melamine surfaces.

Laminate & Melamine Surfaces:

- Do not drop heavy objects on laminate and melamine surfaces. It is possible to chip or gouge the surface if a heavy object is dropped on the table top abruptly.
- Avoid using abrasive or bleach-based cleansers on laminate and melamine surfaces.
- Never use scrub sponges or steel wool on laminate and melamine surfaces.
- Do not place hot objects on laminate and melamine surfaces. It is possible to blister or warp the surface top.
- Do not use laminate and melamine surfaces as a cutting board. A sharp knife may slice a groove in the surface top.
