

MoorePower® Dual Mount Power Assembly

Smarter power access. Flexible mounting. Built for today's connected classrooms.

MoorePower® Dual Mount Power Assembly delivers updated technology and enhanced flexibility in a compact power solution designed for modern learning environments. Replacing the previous generation with improved functionality, this new assembly offers multiple mounting options and a streamlined design that adapts easily to a variety of desk applications.

Designed for versatility, Dual Mount Power Assembly includes both a clamp mount bracket for secure attachment to the top of a desk and an undermount bracket for discreet installation beneath the work surface—both included for maximum flexibility during installation. The assembly features one horizontal AC outlet and one vertical AC outlet, along with a convenient USB-A/USB-C combo module to support today's mix of devices. Finished in black for a clean, professional appearance, Dual Mount Power Assembly provides reliable, easy-access power without cluttering the workspace. It's a practical, future-ready upgrade for classrooms and collaboration spaces where connectivity matters. SCS Indoor Advantage Gold Certified for healthier, human-centered environments.
