

## The All-New, Lighter Weight More Powerful Solution

### In the Classroom or Out, a Real Double-Play

The new Oklahoma Sound® **Model #PRA-8000 Pro Audio Public Address System** incorporates all of today's technology advances in an easy to use stylistic cabinet.

It is the perfect companion for a teacher in class. Plus, weighing in at a smart 19 lbs., it is easily transportable with its built-in handle, for use in the gym or playground. A 40-watt Solid State amplifier is matched to an 8-inch built-in speaker, knocking out more strong, clear sound than any in its class.

The included wireless handheld microphone will broadcast effortlessly up to 100 feet away from receiver/speaker. The control panel also includes a 1/4" mic input for additional wired microphones, as well as a 1/4" & 1/8" auxiliary inputs for iPods & other media players. Sync your smart phone direct to the sound system through built-in Bluetooth technology or play MP3 files through a built-in USB port.

The PRA-8000 even includes an SD/MMC Port. Use with an AC wall plug, or use remotely for up to five hours while powered by its built-in rechargeable lead acid battery. The built-in underside receptacle allows for Tripod set up. Tripod optional.
