

Specification Sheet

Surface Color: Beige
Intersect is a patented shape.

SC6200SP

26"-30" Top
1-3/4" Round Painted Legs
Adj. 25"x34"
Solid Plastic Top - Intersects
with the Method Series Tables

The Intersect desk is designed to create a connected and cohesive learning environment. It can easily nest with our Method series tables, including Ambit, Juncture, Polygon, and Undulate. This concept is specifically developed for the education market, and we are excited to showcase its seamless collaboration capabilities. The desk can be grouped in pods of 2, 3, 4, 6, or 8.

SURFACE

Melsur® solid plastic tops with Scholar Craft exclusive soft rounded Ergo Edge designed for added comfort. The Melsur® solid plastic work surface is made of 3/4" solid plastic consisting of 100% recycled wood flour and Melamine resin to ensure a durable, smooth, stain-resistant surface. Our solid plastic is dry-erasable and fire-retardant.

LEGS

Legs are adjustable from 19"-28" or 25"-34" in 1" increments. The upper portion of the leg is 16 gauge and is powder-coated in black or platinum. The style of the legs on the Intersect table matches the Method series to ensure a cohesive look.

ACCESSORIES

Felt Glides, Steel Glides, Boot Glides, and Locking Casters. See the Storage Options guide under the Resources section of our website for compatible book boxes or hooks.
