

SCREENFLEX ROOM DIVIDER DIMENSION SHEET

All Screenflex Room Dividers consist of a series of 22" wide panels mounted on casters with each individual panel hinged on both sides to the panels adjacent to it. The casters provide the divider complete mobility and the hinged panels, each with 0° to 180° movement, allow the divider to be set in a straight line or any other configuration desired. FREEstanding and WALLmount Dividers are available in six heights and six lengths. All Portable Classroom models combine two 6'-0" high x 16'-6" long dividers with 4'-0" wide cabinet for a total divider length of 37'-0".

FREEstanding ROOM DIVIDER HEIGHTS AND LENGTHS

*STANDARD DIVIDER LENGTHS = (No. of Panels x 22") + 3"

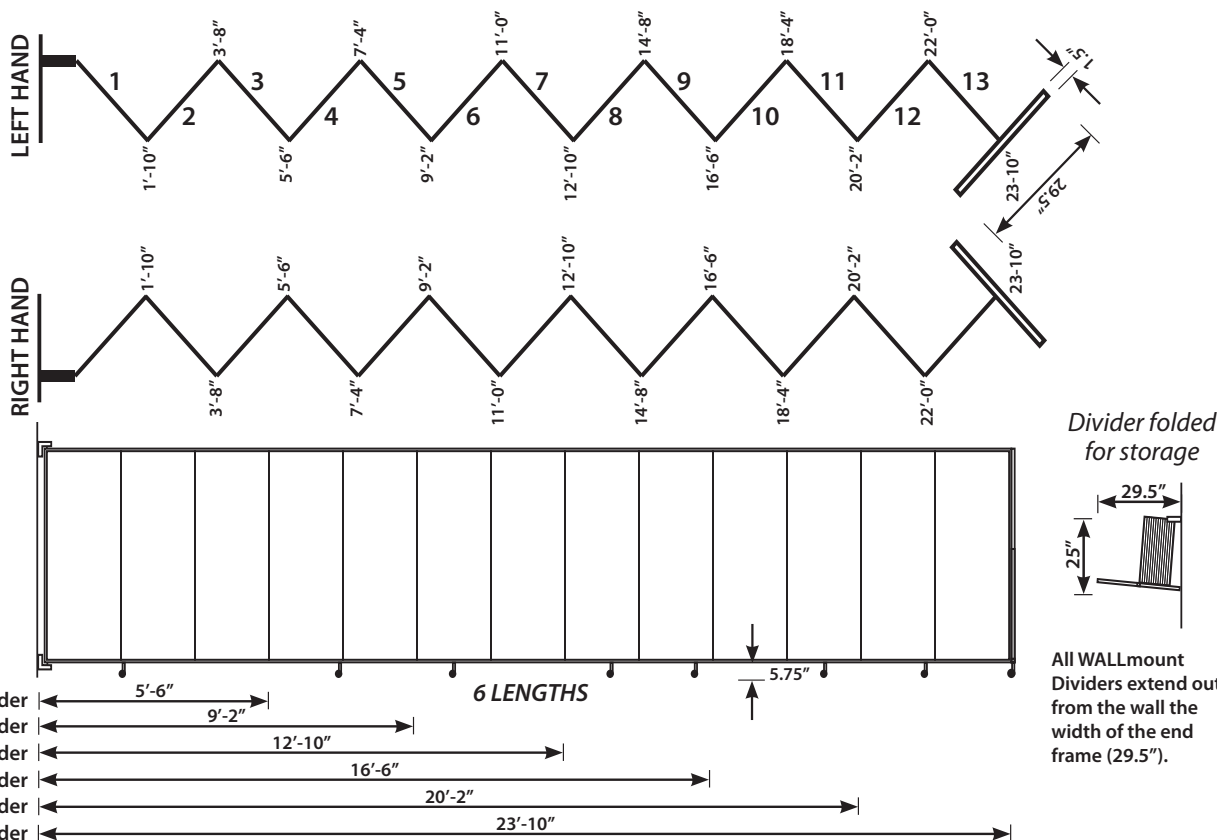

WALLmount DIVIDER HEIGHTS and LENGTHS

*STANDARD DIVIDER LENGTHS = (No. of Panels x 22") + 3"

22" panels hinge as shown

Hand indicates to which side of the mounting point the divider panels stack when folded for storage.

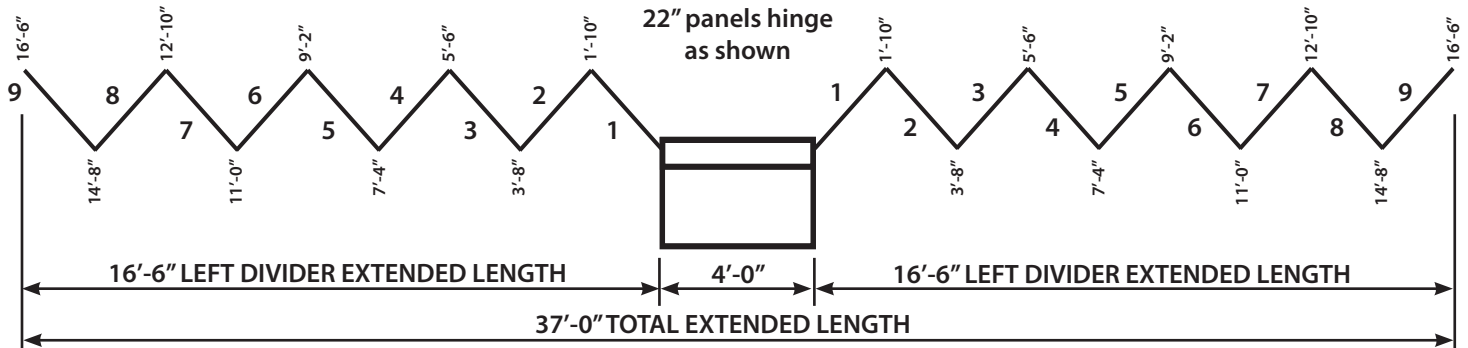

Please see WALLmount Dividers section on reverse side for additional WALLmount end frame information.

PORTABLE CLASSROOM

(Cabinet/Markerboard/Divider Combination)

PARTITION LENGTH = CABINET (4'-0") + (No. of Panels x 22")

DIVIDER HEIGHT = 6'-0"
