

Model # Shown: 11266

OVERVIEW

The Planner Science Table is ideal for science and STEM classrooms. The heavy duty construction contributes to a sturdy work surface that can support up to 400 pounds.

MATERIALS

The 1 1/4" thick work surface consists of a 45 lb density particle board core with a .030" high pressure laminated surface and a .020" melamine backer sheet. The edge of the work surface features t-mold edge molding that is fastened every 6 to 8 inches to assure a long lasting fit.

The frame consists of two fully welded leg segments and a center support channel. The legs are attached to the pre-drilled holes in the top with (16) #10 x 5/8" wood screws through a 3 1/8"w x 18"L 12-gauge steel mounting plate. The mounting plate is welded to (2) 1 1/4" square 12-gauge steel tube legs which is welded to a 1" x 2" 14-gauge steel tube cross bar. The leg inserts are 1" square 14-gauge steel tube and adjust in height from 24" to 34" in 1" increments. Leveling glides are on each 19.5" table leg allowing for stability on uneven floors. The adjustment for each leg is secured with (2) 3 3/4"-16 x .675" allen screws. The center support channel is 2" x 3" 14-gauge steel, with 11-gauge steel end plates for maximum stability. The center support channel is connected to the legs by (4) connector bolts.
