StarBoard
Interactive Annotation

Introducing the StarBoard Lite2, our simplest interactive display. Wirelessly mirror your laptop, PC, or Mac to the big screen in seconds, then annotate seamlessly over any content to make presentations, lessons, and meetings more engaging. With versatile connectivity, optional OPS support, and effortless integration with your existing technology, Lite2 transforms any display into a collaborative workspace.

This series is designed to seamlessly integrate with your current technology devices and software, making it a breeze to display and control your work on big screens in any environment. Packed with enhanced features, including versatile USB ports, StarBoard Lite2 ensures a streamlined, user-friendly experience for all.
