

Indoor Foldable Led Poster Pro Series

● High Quality Led Lamps

- It adopts high-quality brand led lamps, with high brightness, good heat dissipation, stable performance and long service life.
- The white part of the led lamps on the module is the light bead, and the "P" behind it represents the pixel spacing (the smaller spacing between pixels and pixels), the higher the clarity, the better the effect.

● Seamless Cascade

- Led poster display can be seamless cascade with multi screen to reach a large one. Led screen can play as one big screen or separately.
- Ultra-wide viewing angle, non-reflective at any angle.

● Convenient and User-Friendly

- Silky spinner wheels, quick and easy to move your device at any time.
- Foldable design, special use of casters, flexible operation, time-saving and labor-saving.
