

# Tech Tub<sup>TM</sup> and Carts.

# Lock. Charge. Sync.

The new Tech Tub™ is a versatile locking and re-charging solution designed to support various combinations of iPads®, Chromebooks and other tablets.

“ With today’s technological society we have to learn to embrace and encourage the use of technical devices in the classroom setting. The Tech Tubs and Carts provide an easy way to safely transport a variety of different technologies. The ability to remove the tubs from the cart further enhances the flexibility of how these devices can be used in multiple classrooms or divisions. The locking systems provide monitoring assurances and theft protection. — Cheryl - Kindergarten Teacher, Ontario ”

# Tech Tubs™

Tech Tubs™ offer a direct alternative to high cost, heavy and oversized tech storage and charging solutions.

- Designed to be secure, highly mobile and modular, the Tech Tub™ supports a “grow your own technology” approach to purchasing.
- Each Tub is designed to carry, charge and sync between 5-7 iPad®s, Chromebooks or other notebooks
- Tech Tubs™ can store devices in their individual protective cases
- Flexibility ensures that schools are not locked into one type of device and have the choice to purchase other models at a price that makes sense
- Made from high impact ABS plastic to provide security and avoid abuse
- Light enough for students or teachers to carry
- A flexible approach to pricing allows you to purchase a Base Tub for as low as \$73.50 or a fully loaded Premium Tub for \$244.00
- The modular approach also allows you to purchase further features and build the Tub to suit your needs
