Warning! Hazard Risks!

Please read the warnings below for important safety information regarding your product. Failure to read these warnings or to follow the instructions below could result in personal injury or damage to your product that could void your warranty.

Small Parts

In its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

Adult Supervision

This product is to be used under the supervision of an adult.

Indoor Use Only

This product is intended for indoor use only. To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. The internal components are not sealed from the environment.

Power Strip Specifications

Read your power strip electrical specifications. Only plug in devices that are approved for use with this power strip. Connect the supplied power strip directly to a wall outlet. **Do not connect to another power strip or use an extension cord.** Unplug when not in use. **Do not leave this product plugged in for more than 72 consecutive hours.** Turn off power strip before unplugging.
Electronic Equipment

Read the electrical specifications of any electronic equipment you are using with your Copernicus products. Failure to read these specifications and follow their instructions could result in damage to your equipment or personal injury.

Cable Trip Hazard

Ensure that any cables extending across the floor to your product are properly bundled and marked to avoid tripping or falling which may lead to personal injury.

Electrical Shock

Do not install or use the electrical components of this unit during a lightning storm.

Climb Hazard

Do not climb on, hang from or suspend objects from any components of your product unless otherwise specified.

Tips for Assembly

Watch for These Helpful Symbols

This symbol denotes a 2-Person Task. For safety, please ensure that there are the suggested number of people working on steps displaying this symbol.

2-Person Task

Watch for this symbol throughout the Assembly Guide. Wherever you see it, pay close attention. The symbol denotes a step needing extra attention to ensure it is done correctly.

The star symbol highlights an advisory note.

Before You Begin

- Lay out and identify all of the included parts.

- The hardware has been packed according to step.

- Read the assembly guide over once to familiarize yourself with them.

! Please note that in its unassembled state, this product contains parts that can be hazardous to small children. This product should be assembled by an adult.

As You Assemble the Unit

- Follow the steps in sequence.

- Before beginning each step, find the part(s) that you need for that step.

- Pay attention to the labels on the parts; they are there to help direct you at certain stages.

- The title of each step states what you will be doing. Review the text and the pictures as you build the unit.

Customer Service - FAQ's

STOP!

If you purchased the Royal® Reading Writing Center or the Dual Duty Teaching Easel you will need to install the Tub Rails on your Tech Tub^2® first before proceeding with this assembly guide. Please look inside the easel box for the FTT-AC1 kit where you will find the Tub Rails and the Tub Rails assembly guide.

**If you have not purchased one of these two products, please proceed to the next page to begin setting up your Tech Tub^2®.**
Royal® Reading Writing Center
Dual Duty Teaching Easel

1

You will need: (Not to Scale)

Power Box Door
x1

Attach Power Box Door to Bottom of Tech Tub2®

Snap door into corresponding holes found on inside bottom face of tub.
! **Push bottom of door into holes until you hear a SNAP!**

Look at the underside of the tub to ensure all the Power Door snaps are fully engaged.

SNAP!

2

You will need: (Not to Scale)

6 outlet Power Strip
x1

OR
10 Outlet USB Hub
x1
(255144)
Install Power Strip or 10 Outlet USB Hub

Feed excess cable through hole on back of tub and wind up the remaining cable

Power Strip

! Leave some slack on the cord so it is easier

! TURN POWER SWITCH ON

OR

10 Outlet USB Hub

! Leave some slack on the cord so it is easier

! Wrap excess cord

! TURN POWER SWITCH ON
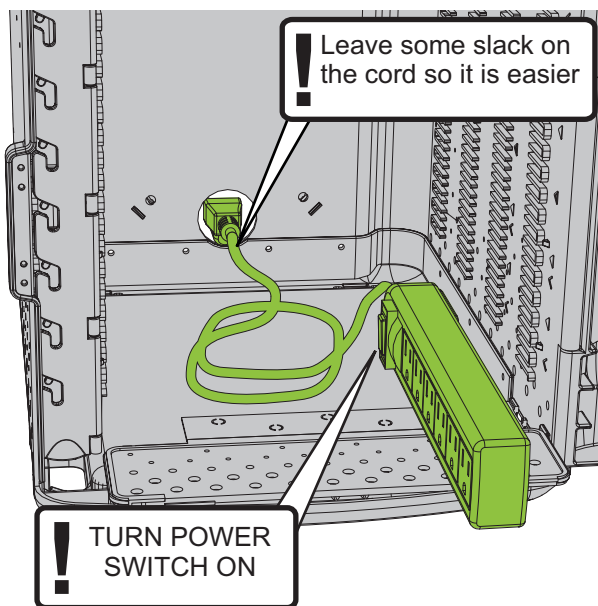

3

You will need: (Not to Scale)

Hook & Loop Straps
6x
Plug in Device Power Cords into Power Strip or 10 Outlet USB Hub

**Start from the back of the power strip or 10 Outlet USB Hub and work forwards**

! Use Hook & Loop fasteners provided to keep adapters tidy!
iPads/Tablets with Power Strip
Chromebooks with Power Strip

iPads/Tablets with 10 Outlet USB Hub

4

Wrap Up Power Strip Cable or USB Power Cable

Make sure all device cables are pushed far back into tub before wrapping Power Strip cable
Use the Cable Clip to keep the Power Strip cord secure.

Chromebook

FTT600_FTT600-USB - Version C - Released August 2nd, 2016 - Copernicus Educational Products Inc.
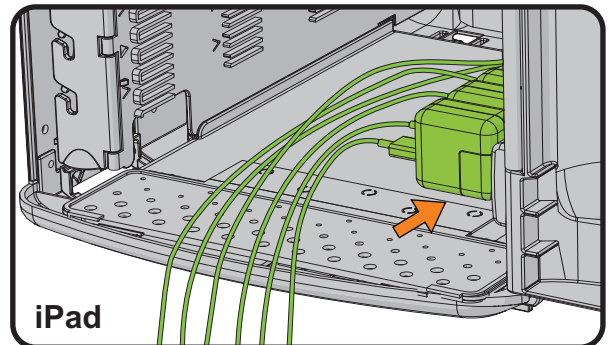

Feed Power Cables Through Cable Management System and Cable Pocket Door

**2** Hook cables into Cable Pocket Door slots leaving 6"(15cm) of cable outside to plug into device.

Use the top six slots to ensure the cables line up with your devices.
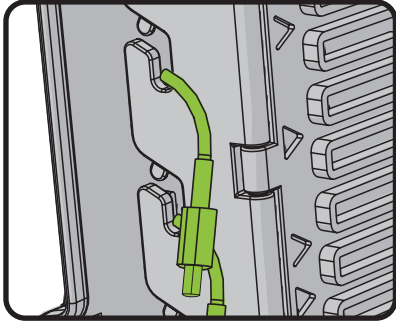

1 Slide cable through opening
iPads/Tablets Power Box Setup
### Chromebooks Power Box Setup
6

You will need: (Not to Scale)

Shelf
x6
Insert Shelves into Tech Tub² ® Body
**Follow pattern below for proper divider placement**

1 **Slide first shelf into slot.**

2 **Push shelf in until you hear a SNAP!**

Place your dividers in the slots marked with the following symbol pattern. Push in until you hear the SNAP! Its easiest to start from the bottom of the tub, just above the Power Door, and work upwards.

NOTE:
For cases thicker than 30mm (1.18") only use bottom shelf and stack your devices.
Depending on your device and/or cases used, divider spacing can be customized for your needs..
3 **Close Power Box Door Once Shelf is in Place**

SNAP!
## Place Devices onto the Divider

Plug in devices with corresponding cord once in place
iPads/Tablets

You can use the Cable Clip on the front of the Shelf to keep your cables in place.

**!** Push extra cord behind Cable Pocket Door once device is installed.

Chromebooks

You can use the Cable Clip on the front of the Shelf to keep your cables in place.

! Push extra cord behind Cable Pocket Door once device is installed.
★ Surface Mounting Tech Tub²®

Lock Tub to Surface Using Locking Pin.

! **First, complete the installation of surface mounting hardware using the attached template; then complete the steps below to secure your Tech Tub²® onto the surface.**
1 **Hook the rear feet onto the pins, slide tub all the way back.**

2 **The slot on the front underside of the Tech Tub²® fits over the metal tab.**

3 **Open the Tech Tub²® front door and slide the locking pin through the metal tab.**

4 **After sliding pin through bracket, lock front door of Tech Tub²® to secure devices.**
