TOT TOWN WATERPLAY SPECIFICATIONS

902-806, 902-806-S, 902-297, and 902-827

All products listed above shall be fabricated from 3/4" high-density polyethylene with UVstabilizers to help maintain color integrity. Fasteners shall consist of a combination of nickel coated corner brackets utilizing 5/16" and 3/8" hardware. Tables will be supported by powder coated 2 3/8" galvanized steel posts. Lexan bubbles will be tapped and plugged for regular drainage.
