

8000-BA Science Tables

INNOVATIVE DESIGNS
FOR CREATIVE SPACES

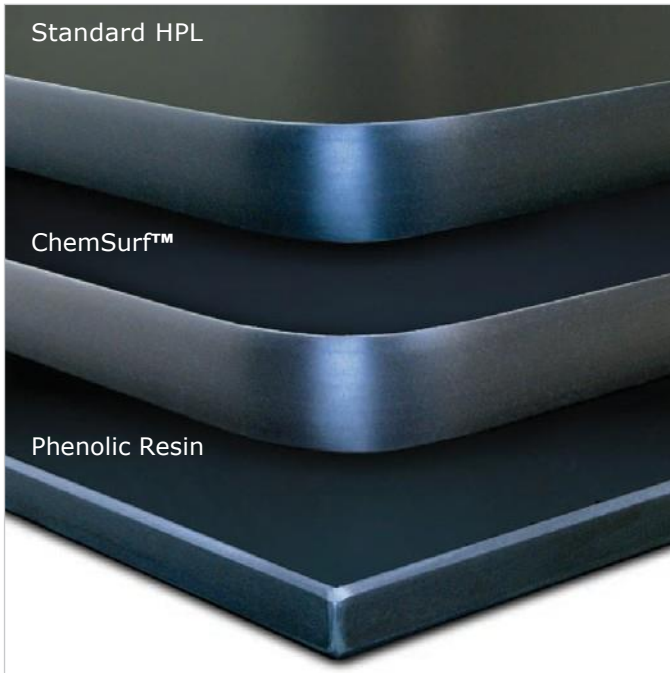

30" x 72" Table Shown with Chemsurf™
Chemically Resistant Top at Standard 30" Work
Surface Height

The sleek and modern look of the 8000-BA Series of steel frame science tables, with a choice of standard or chemically resistant surfaces, offers a value packed marriage of form, function and affordability.

8000-BA Science Tables

Allied Science Table Collection

Features

- All steel frame construction with enamel finish
- Eight size options
- Choice of High Pressure Laminate (HPL), ChemSurf™ or Phenolic Resin work surfaces
- Vinyl T-mold edge on HPL tops
- 1/8" beveled edges on solid phenolic tops
- Premium Twin-Bolt leg fastening system

Specifications

Work Surface:

HPL: 1 1/4" thick, 45 lb. density particleboard with premium high-pressure stain resistant laminate. Backer sheet for balanced construction, black vinyl T-mold edges.

ChemSurf™: 1 1/4" thick, 45 lb. density particleboard with premium high-pressure stain resistant laminate. Moderate chemical resistance. Backer sheet for balanced construction. Black vinyl T-mold edge banding.

Phenolic: 3/4" Thick solid phenolic resin. Superior chemical resistance. 1/8" Beveled edges.

Frame Construction:

16 gauge 1 1/4" square tubular steel legs with adjustable steel glides available in black powder coat finish. 16 gauge 3 1/4" apron available in complementary black finish. 14 gauge steel corner brackets with premium twin-bolt fastening system.

Table Height:

Nominal work surface height of 30"
Customizable fixed height work surfaces up to 36" are available (Please specify when ordering).
