M70W

Wireless Multifunctional Camera

The AVer M70W wireless multifunctional camera provides a powerful platform to capture and share information. The M70W is the most advanced camera AVer has ever created to empower educators and students to share, discover and learn! Designed for the modern classroom and lecture hall, it features 4K output for the sharpest picture, wide shooting range and rich 13 megapixels to capture fine details.

Wireless that works!

| **4K** Output | **13**MP Camera | **230**X Total Zoom | **10**X Optical Zoom | **5**Yr Warranty |

True videoconferencing solution

The M70W can also serve as a true videoconferencing solution with high definition resolution and built-in microphone to support integration with Skype or Zoom applications.

Connect wirelessly and more!

The M70W includes an on-board battery and WiFi connectivity to allow complete freedom to move and share around the classroom. Multiple wired connection options such as HDMI in/out and USB provide additional flexibility for many device types.

HDMI In/Out

USBmini · USB · WiFi · Antitheft lock

Software is as simple as one touch

With our new AVerTouch software it's never been quicker and easier to go from set-up to showtime. Build and edit new creative content with powerful multitasking and editing tools and save to the Cloud with a simple click.

Connect wirelessly with Peer-to-Peer WiFi

With the Peer-to-Peer (P2P) WiFi technology, the M70W creates a direct WiFi connection to your computer (Win10/MacOS)! This dedicated connection ensures maximum performance and reliability without interfering with your existing school or work WiFi or Ethernet connection(s).

P2P

Amazing clarity and coverage

Showcase vivid details in your presentation and create a captivating experience with the camera's 4K output at 60 fps and 10x optical/ 23x digital zoom features. The massive 18.89" × 13.58" shooting area allows you to capture and share large documents and objects like never before!
